

## IMPORTANT DATES

- 15 December 2016** Abstract submission deadline (max 500 words)
- 1 February 2017** Notification to authors of abstract acceptance
- 01 March 2017** Papers submitted for review
- 30 March 2017** Papers reviewed and comments sent to authors
- 20 April 2017** Submission of revised papers and early registration deadline
- 01 May 2017** Deadline for registration of at least one author
- 02-05 July 2017** Conference

## ABOUT THE CONFERENCE

The aim of the International conference on advances in energy systems and environmental engineering is to bring together scientists and engineers involved in Energy and Environment.

The provisional scope of the conference will cover the following:

- Air, water, and waste energy nexus
- Waste, microbiology in Environmental engineering
- Cooling technologies
- Small Modular Nuclear Reactors
- Renewable Energy technologies
- Heat pumps
- District heating and cooling
- Zero energy buildings

The papers will be published in the conference proceedings and the selected papers will be considered for publication in High impact factor issues of International journals

### Conference chairmans:

Prof. Jan Danielewicz  
Prof. Hussam Jouhara  
Prof. M. Shafik El-Genk

### Registration Fee for:

Participants:	350 € (before 30 April 2017) 400 € (after 1 May 2017)
Accompanying person:	250 € (before 30 April 2017) 300 € (after 1 May 2017)
PhD students:	250 € (before 30 April 2017) 300 € (after 1 May 2017)

# INTERNATIONAL CONFERENCE ON ADVANCES IN ENERGY SYSTEMS AND ENVIRONMENTAL ENGINEERING

(ASEE17)

**2<sup>nd</sup> to 5<sup>th</sup> of July 2017**

### Organizers:

Wroclaw University of Science and Technology (Poland)  
The University of New Mexico (USA)  
Brunel University London (UK)

[www.asee17.wis.pwr.edu.pl](http://www.asee17.wis.pwr.edu.pl)

Wroclaw University  
of Science and Technology

Brunel  
University  
London

Celebrating  
50  
years

## LOCATION

With great pleasure we invite you to the 1st International conference on advances in energy systems and environmental engineering (ASEE17), which will be held in Wroclaw, Poland from 2 to 5 July 2017.

The Conference will take place in Wroclaw – Poland, University of Science and Technology .

One of the most beautiful city in Poland, Wroclaw, situated on the Odra river, is the historic capital of Lower Silesia. The city emerged at the intersection of major trade routes linking the West and South with Eastern and Northern Europe. Being a communication, industrial, academic, scientific and cultural centre, the city is the greatest tourist attraction in south-western Poland. In its 1000-year history the city has undergone many political, economic and cultural changes that have contributed to Wroclaw's present architectonic and cultural visage.

Wroclaw is a very picturesque city with a great number of green areas, parks and **115 bridges** spanning five rivers cutting across the city.

Wroclaw, with a cosmopolitan history, is a reduced model of Europe where the greatest diversity has accumulated within a small space. Openness has been a constitutive feature of our city throughout its history.

Wroclaw is also a cultural laboratory, in which a process of mutual metamorphoses of various cultures, coming into contact in this city in the past and today, goes on continuously. For all reasons above Wroclaw has been chosen for European Capital of Culture of year 2016.

This is the site where you can find nearly everything you need to know as a visitor in Wroclaw:

[www.wroclaw.pl/en/](http://www.wroclaw.pl/en/)
